Big Brothers Big Sisters Celebrates National Mentoring Month

January marks the sixth annual National Mentoring Month. It is a time to reflect upon our own childhood and remember those people who offered us guidance. These mentors helped us learn from their past while shaping our future. For many of us, a mentor might have been a teacher, coach, neighbor, or fellow member of our congregation.

National Mentoring Month gives each of us a couple of opportunities. First, this month is an excellent time to reconnect with those who have mentored us, to let them know the time they volunteered with us made a difference in our lives. And second, it gives us the opportunity to “pass it on,” perhaps by making a New Year’s resolution that is both fun and rewarding – becoming a volunteer mentor to a child in our community!

Currently there are many “Little Brothers” waiting so very patiently for that special, fun “one-to-one” relationship that a Big Brother can provide -- all in as little as 4 hours per month!

For information on becoming a “Big” call Big Brothers Big Sisters at 837-KIDS.
